SUMMARY

Frontend engineer with 4.5+ years building production web applications for US and Indian enterprise clients, promoted twice at Capgemini. Specialises in React, Next.js and TypeScript: reusable component systems, data-dense dashboards, performance (caching, prefetching, request deduplication) and polished, accessible interaction design with Framer Motion. Has led frontend delivery, worked directly with client stakeholders and mentored junior developers.

SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, C#, SQL, Python

Frontend: React, Next.js, React Native, Redux Toolkit, React Query (TanStack), Zustand, Context API, React Hook Form, React Router

UI & motion: Tailwind CSS, Material UI, Framer Motion, CSS/SVG animation, Recharts, responsive design, component libraries, accessibility

Backend & data: ASP.NET Core (.NET 6), Node.js, REST APIs, WebSockets, Entity Framework Core, SQL Server (stored procedures), Oracle; exposure to Kafka, Spring Boot, Camunda BPM

Performance: Caching, prefetching, request deduplication, server-side pagination, lazy loading, code splitting

Testing & tools: Jest, React Testing Library, Postman, Swagger/OpenAPI, Git, GitHub, Azure DevOps, Jenkins, CI/CD, Azure, AWS, Jira, Figma, Google Tag Manager, Claude Code, Agile/Scrum

EXPERIENCE

Capgemini — Apr 2022 – Oct 2026

Pune, India · Promoted twice: Software Engineer → Senior Analyst → Associate Consultant

Associate Consultant — Jan 2025 – Oct 2026

- Led frontend in React and TypeScript for Reliance Jio retail platforms: store tracking (Anytrac), ESL device management and an Integration Hub for configuring integrations across internal services.
- Migrated a legacy application to a modern React + TypeScript stack, improving maintainability and developer velocity.
- Turned dense operational data into clear dashboards, filterable tables and tracking views backed by Node.js services; worked directly with client stakeholders and mentored junior developers.

Senior Analyst — Jan 2024 – Dec 2024

- Cut redundant API calls by up to 60% with React Query caching, session handling, background refetching and prefetching.
- Designed a reusable search component with history caching and request deduplication, shared across PT, Rebar and Projections modules.
- Built and integrated REST APIs in ASP.NET Core (.NET 6) with SQL Server, Oracle and Entity Framework Core; collaborated with Spring Boot, Kafka and Camunda BPM teams.

Software Engineer — Apr 2022 – Dec 2023

- Reduced validation-related customer bugs by ~30% by reworking multi-step forms with React Hook Form and clearer error states.
- Built a shared UI component library (React, Redux Toolkit, Context API, MUI) for Commercial Metals Company (US client).
- Wrote tests with Jest and React Testing Library and shipped through CI/CD on Azure DevOps and Jenkins in Agile Scrum teams.

Banao Technologies — MERN Stack Developer Intern (Bengaluru) — Mar 2022 – Apr 2022

- Built responsive React interfaces and cross-platform React Native apps for iOS and Android, managing state with Zustand and Context API.

PROJECTS

CMC Enterprise Application — Commercial Metals Company (US) · React, TypeScript, MUI, React Query, ASP.NET Core

- Business-critical PT, Rebar and Projections workflows for a US steel manufacturer, handling high-volume data with server-side pagination, caching and reusable components.

Anytrac, ESL Platform & Integration Hub — Reliance Jio · React, TypeScript, Node.js, REST APIs

- Dashboards and tracking views for store operations, ESL device management for store staff, and a UI for configuring integrations across services.

Kholi — flatmate room-replacement app (side project) · Next.js, Supabase, TypeScript

- Web app that helps a leaving flatmate find a replacement for their room; designed and built the MVP end to end.

Demodrop — screen recorder Chrome extension (side project) · Chrome Extension

- Records clean, polished product demos ready to post on social platforms.

Portfolio & interaction experiments — prasenjitpawar.com · Next.js, Framer Motion, Figma, Claude Code

- Designed and built the site end to end, with interaction experiments (shared layout transitions, gesture-driven drawer, keyboard-accessible action bar) and articles on CSS, the event loop and closures.

EDUCATION

B.Tech, Computer Science and Engineering — Dr. Babasaheb Ambedkar Technological University, Lonere — 2018 – 2021 · CGPA 7.87

Diploma, Computer Engineering — P.E.S. Polytechnic, Aurangabad — 2015 – 2018
